COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir/Madam:

These Comments on Statement of Reasons for Allowance are filed in response to the Notice of Allowance, received via facsimile on August 1, 2005, in the above-referenced patent application.

The Examiner provides a collective statement of reasons for allowance of claims 4, 12, 20 and 23, for including the following limitations: "transmitting a predetermined training sequence from said PCM transmitter modem to said PCM receiver modem during said training mode said training sequence having a less-colored spectrum, relative to said colored transmit signals, over a limited bandwidth, wherein the spectrum of said training sequence is characterized by a reduction in DC suppression relative to said transmit signal."

However, claims 20 and 23 do not include all such limitations. Rather, claim 20 recites "transmitting a predetermined training sequence from the PCM modem during the training mode, the predetermined training sequence having a less-colored spectrum, relative to the colored transmit signal, over a limited bandwidth," and claim 23 recites "processing a predetermined training sequence during the training mode, the training sequence having a less-colored spectrum, relative to the colored transmit signal, over a limited bandwidth."

Applicant respectfully submits that the Examiner's collective statements of reasons, for allowance of the independent claims, relates to each independent claim to the extent that such independent claim includes the limitations recited by the Examiner in the Notice of Allowance.
